## CC6 - CABRERA WILSON

---

This in turn heightens the intensity of competition and further strengthens survivors in an ever-evolving dynamic. Written by a leading organizational theorist, The Red Queen among Organizations challenges the prevailing wisdom about competition, revealing it to be a force that can make — and break — even the most successful organization.

### **The Red Queen Among Organizations: How Competitiveness ...**

'Red Queen' competition is a dynamic

among rival organizations, where competition triggers learning, which in turn increases competition in a self-accelerating process. Organizations in Red Queen competition are continuously changing in absolute terms, although they may be relatively stable.

More research on the ways that competency traps appear among coevolving organizations would help to illuminate these consequences of the Red Queen dynamic.

To conclude, we note that if once it was common for research on organizations to draw inferences from cross-sectional “snapshots” of data, modern scholarship in the field now routinely features data covering relatively long time periods.
