With regard to the primary objective of this study, which was to analyze the relationship between entrepreneurial orientation, marketing capability and business performance in retail supermarket firms from Santa Catarina, Brazil, all of the research predictions were completely confirmed and the results can be expressed as follows: There are relationships between entrepreneurial orientation ...

As supermarkets are an essential part of society 's daily life, a reciprocal dependency exists in the relationship between a supermarket and society (Razalan et al., 2017). Ironically, despite using expensive high-tech surveillance equipment, supermarkets continue to face heavy financial, social, and emotional losses from retail crime (Kennedy and Benson, 2016).

The study also examines the impact of the relationship between Coles and Woolworths and their suppliers on consumers as the end-user in the chain of consumption. The paper argues that the ethical treatment of suppliers by supermarkets will lead to better outcomes for both suppliers and consumers and contribute to the long-term sustainability of the firm.
