The White Fleet Blood on the Stars 7 The war is over, but the struggle continues. Tyler Barron and his spacers have set out into the unknown, deep into the Badlands, seeking to discover the empire's old tech and the secrets of its tortured history before Gaston Villeneuve and the resurgent Union can beat them to it.

The White Fleet is the seventh novel in the series and as I often say if you have read the books so far that will certainly not be dis-

appointed with this installment. Regular characters with circumstances obviously changing remain as strong as ever and new storylines open up as the military and political landscape changes.

[The White Fleet \(Blood on the Stars\): Amazon.co.uk: Allan ...](#)

*The White Fleet* is an excellent addition to the world of *Blood on the Stars*. I especially liked how this book, now that the immediate threat presented by the Union is defeated (though not exterminated, and still gathering strength and causing trouble in the background), furthers worldbuilding by exploring worlds beyond the rim.

[The White Fleet \(Blood on the Stars #7\) by Jay Allan](#)

*The White Fleet*, as with the other books in the *Blood on the Stars* series, is exceptionally good and left me with the feeling the entire Rim is up the doo-doo, particularly with the Union's usual underhand strategies unbalancing things in the Confederation, as well as the new threat Tyler and the White Fleet discover.
