When Lacy wakes up dead in Westminster Cemetery, final resting place of Edgar Allan Poe, she's confused. It's the job of Sam, a young soldier who died in 1865, to teach her the rules of the afterlife and to warn her about Suppression—a punishment worse than death. Lacy desperately wants to leave the cemetery and find out how she died, but every soul is obligated to perform a job. Given the task of providing entertainment, Lacy proposes an open mic, which becomes a chance for the cemetery's residents to express themselves. But Lacy is in for another shock when surprising and long-buried truths begin to emerge.

This 1973 text provides a critical introduction to the writings of Franz Kafka. Within it Ronald Gray surveys the novels and short stories, and glances also at the religious or confessional writings. He presents a persuasive and coherent account of Kafka's personal and artistic development and its meaning and value for us. Dr Gray argues that the early short stories are most finished and controlled; here Kafka recognised and managed to find a form exactly fitting his own condition, and the writing is less compulsive and obsessional than it became later. Dr Gray quotes extensively, translating specifically for the purpose. He writes for all whose who read Kafka, especially the many who read him in translation and would like a helpful and shrewd guide to understanding. Kafka's work hauntingly expresses one whole area of the modern mind - its anguish, dissociation and guilt - and this sane and sympathetic book puts him into a humane perspective.

She drives across several states until she ends up in a sleepy little Michigan resort town as the summer season draws to a close. All Beth wants to do is escape, to stay unnoticed, to fly under the radar. But tiny Beaumont is a town with big secrets, some very like the ones she's fled from, and she arrives in town at the same time a murderer strikes. Beth, who has never gone to school, never held a job, and isn't even sure if 16 is her real age, enlists the help of a protector, Dee, the town's café owner, who sees a little of herself in Beth. Beth has to jump into a world she's never known—a world of other teens, of cell phones and computers, cliques and bullying, girlfriends and boyfriends. And killing. So much killing. When the murderer strikes again, and again, Beth is certain her plans to start a new life are over and the worst is yet to come. "J.D. No Foreign Bones in China tells a story of China through the eyes of a British colonial family. Through the Opium Wars, the Boxer Rebellion, two world wars, and the rise of Mao, the Shaws were witness to the turbulent birth of modern China. Captain Samuel Lewis Shaw, a merchant seaman, arrived in China in the 1830s. After a long and colourful career, he settled in the port of Foochow, married a Japanese woman, and started a family. The Shaw children grew up in Pagoda Anchorage, the heart of the Chinese tea trade, and expected to spend their lives in this beautiful place. But a few years later, they were forced to leave. In a dramatic display of pro-Chinese nationalism, foreigners were expelled from the country—even to the bones lying in their graves. Told with emotion and insight, No Foreign Bones in China explores cultural history in lavish detail. In re-creating the story of his family, Peter Stursberg reveals history as it was lived and made.

The new essays in this collection, on such diverse writers as Eugene O'Neill, Susan Glaspell, Thornton Wilder, Arthur Miller, Maurine Dallas Watkins, Sophie Treadwell, and Washington Irving, fill an important conceptual gap. The essayists offer numerous approaches to intertextuality: the influence of the poetry of romanticism and Shakespeare and of histories and novels, ideological and political discourses on American playwrights, unlikely connections between such writers as Miller and Wilder, the problems of intertexts in translation, the evolution in historical and performance contexts of the same tale, and the relationships among feminism, the drama of the courtroom, and the drama of the stage. Intertextuality has been an under-explored area in studies of dramatic and performance texts. The innovative findings of these scholars testify to the continuing vitality of research in American drama and performance.

Sherry Monahan is an authority on "the city that wouldn't die" and its history. In Tombstone's Treasure, she focuses on the silver mines, one reason for the city's founding, and the saloons, the other reason the city grew so quickly. When the discovery of silver at Tombstone first became known in mid-1880, there were about twenty-six saloons and breweries. By July of the following year, the number of saloons in Tombstone had doubled. The most popular saloon games of the time were faro, monte, and poker, with some offering keno, roulette, and twenty-one. Monahan shares true tales about Tombstone's mining and gambling history and describes a different time and locale where wealthy businesspeople and rugged miners rubbed elbows at the bar and gambled side by side. It is both shocking and enlightening to learn just how sophisticated Tombstone really was when the Earps, Doc Holliday, Johnny Ringo, and Curly Bill strode the boardwalks. Tombstone actually had telephones, ice cream parlors, coffee shops, a bowling alley, and a swimming pool. Wow! It is so contrary to the Hollywood version of the town . . . but it's absolutely true."--from the Foreword by Bob Boze Bell Read Sherry Monahan's interview on AMC on the Wild West and the film Wild Bill
