From inside the corner office at Lehman Brothers to secret meetings in South Korea, Russia and the corridors of Washington, Too Big to Fail is the definitive story of the most powerful men and women in finance and politics grappling with success and failure, ego, greed, and, ultimately, the fate of the world's economy.

"Too Big to Fail" is an altogether excellent book by financial journalist Andrew Ross Sorkin. It's a compelling narrative that tells the story of how the nation's largest and most prestigious financial institutions came to the brink of collapse – and almost took the entire economy with them – in the great economic crisis of 2008.

Too big to fail is a phrase used to describe a company that's so entwined in the global economy that its failure would be catastrophic. Big doesn't refer to the size of the company, but rather it's involvement across multiple economies. Former President George W. Bush's administration popularized "too big to fail" during the 2008 financial crisis.

From the editor: The new financial-crisis movies "Inside Job" and "Too Big To Fail" are riveting tales of Wall Street and its giant banks, but don't expect to find out why taxpayers were forced to bail out those big banks in 2008. Each movie tells important pieces of the crisis of 2007-2008, but neither explains...

Commentary: Movies 'Inside Job' and 'Too Big To Fail ...

Too Big to Fail is a non-fiction account of the financial crisis that hit the United States in 2008 which resulted in the implementation by the federal government of the Troubled Asset Relief Program, or TARP, which purchased bad assets and invested public money directly in financial institutions in an effort to stabilize the system.
