Trading the Bullish and Bearish Measured Move Patterns

...

A measured move up is a chart pattern that signals an upward price trend where the second leg equals the move (\$) and duration of the first leg (in theory). Read for performance statistics, trading tactics, ID guidelines and more. Written by internationally known author and trader Thomas Bulkowski

Measured Move Up - ThePatternSite.com

As is the norm and I have explained in the past, when it comes to measured moves, you have to think in terms of trade entry to completion. The market is continuously evolving and for the purposes of any trader's objective, you simply need to determine what a reasonable movement would be.

Measured Moves Trading the First Drive or Range Reversal ...

Measured Move. A measured move is the distance from a reaction extreme to the next price target. The premise of a measured move is that prices will move in equal increments. This basis for setting price targets in technical analysis is used with chart patterns such as flag patterns and pennant patterns.
