79A - ANNABEL KIRBY

Many of the temples and buildings in the Forum would have only been accessible to the privileged few, and there's something rather poignant about the fact that two thousand years of history have opened the doors - and the walls - to the rest of Rome. Our itineraries covering Ancient Rome reveal more secrets of the House of the Vestal Virgins.

Vestal Fire An Environmental History

10 Fascinating Facts About Rome's Vestal Virgins - Listverse

While environmental history's roots as a discipline lie in environmentalism and in an understanding of the cultural construction of "environment," its practitioners have diverse views about which subjects to cultivate, with whom, and at what scale.

These women were known as the vestal virgins, or the vestals for short. For a thousand years, they attempted to keep Vesta's sacred fire lit. And because of the 10 reasons listed below, they were perhaps one of the most fascinating orders in all of history. 10 They Had To Remain Chaste But Not Forever

The responsibilities and risks of the College of Vestal Virgins. The Virgins occupied a special place in the official religion of Ancient Rome. Their principal task was to tend to the sacred fire of Vesta and keep it burning. It was believed that the fire protected Rome. They were also responsible for many rituals denied to male priests.

10 Fascinating Facts About Rome's Vestal Virgins - Listverse

The Vestal Virgins were venerated priestesses of Vesta, the Roman goddess of the hearth fire (full title: Vesta publica populi Romani Quiritium), and the guardians of the luck of Rome who could intervene on behalf of those in trouble. They prepared the mola salsa that was used in all state sacrifices. Originally, there were 2, then 4 (in Plutarch's time), and then 6 Vestal Virgins.

Who Were the Vestal Virgins? - ThoughtCo

A dense but highly readable illustrated history of fire's role in the forging of European civilization. Historian Pyne (Arizona State Univ.) has written several books (World Fire, 1995, etc.) about the impact of fire in such far-flung places as Australia and the Grand Canyon as part of a series he has titled "Cycle of Fire." He now adds a strong entry to this series with this epic look at ...
