Hi, So I took my dog to the vet because he has VERY pale gums first thing in the morning and is shaky, the vet couldn't work out what was wrong with him and put him on antibiotics. I how ever have a feeling it could be due to a change in his routine we have an unspayed b!tch in the house (she couldn't get spayed due to medical reasons until now but now cant due to being in season) and they are ...

### **Whats wrong with my dog? | Yahoo Answers**

If a dog eats nothing for a few days or loses his appetite over a period of time this can be a sign of a serious illness. A mild illness, like a tummy upset, could cause him not to eat for a day or two. Problems with his teeth or pain can also cause him to eat less - just like you would. But there are other reasons for a dog to stop eating.

### **My Dog Won't Eat - What To Do When Your Dog Is Off His Food**

In "What's Wrong with My Dog?", acclaimed vet Jake Tedaldi, DVM, gives you the answers. More than a first-aid book but as easy to follow and use, "What's Wrong with My Dog?" is organized by symptom. Each of the 150 symptoms is clearly described (and illustrated if needed).

### **What's Wrong with My Dog?: A Pet Owner's Guide to 150 ...**

If your dog is limping or is holding up one paw and seems fearful of putting weight on it, there may be something stuck in his paw. Just like a splinter will cause pain and annoyance to us humans when it is stuck in our hand or our foot, so does a dog suffer if there is something stuck in the padding at the bottom of his paws.
